Approved at the meeting of Academic Affairs on May 11, 2011

1. The following Regulations are introduced in accordance with Article 5 of the Regulations Regarding International Students Undertaking Studies in Taiwan and issued by the Ministry of Education (MOE).
2. "International Students" here refer to those students who have an individual of foreign nationality and never held nationality status from the Republic of China and does not possess an overseas Chinese student status at the time of application.
An individual of foreign nationality, pursuant to the following regulations and who has stayed overseas continuously for no less than 6 years, is also qualified to apply for admission.
 - (a) An individual who has a nationality status from the Republic of China at the time of their birth but does not hold a household registration must state this on their college application.
 - (b) An individual who has had nationality status from the R.O.C but has no R.O.C. nationality at the time of their application shall have an annulled status regarding their R.O.C. nationality for no less than 8 years after an annulment of their R.O.C. nationality by the Ministry of the Interior.
 - (c) Regarding individuals mentioned in both of the above subparagraphs they must not have studied in Taiwan under the status of an overseas Chinese nor received placement permission for an academic school year by the University Entrance Committee for Overseas Chinese Students.

According to the Education Cooperation Framework Agreement, a foreign national who was selected by a foreign government, organization, or school, and does not hold a household registration from the time of their birth is not subject to the limitations as prescribed in the preceding 2 paragraphs after receiving the approval from the designated authorized government educational institutions.

The six and eight year calculation period as prescribed in Paragraph 2 shall be calculated from the starting date of the semester (Feb. 1st or Aug. 1st) as the designated due date for the time of study.

"Overseas" as prescribed in Paragraph 2 is limited to countries or regions other than Mainland China, Hong Kong and Macau; the term "continuously" means that a individual may stay in Taiwan for no more than a total of 120 days per calendar year.

An individual, who has both foreign and R.O.C. nationalities and has applied for an annulment of their R.O.C. nationality before Feb. 1st, 2011, the effective date of this amendment, is then qualified to apply for admission under the original regulation as an international student and is not subject to the limitation as prescribed in Paragraph 2.

3. Upon completion of the course of study at a school in Taiwan, international students who continue to undertake higher academic studies at TKU, except for those who apply for graduate schools, shall follow application procedures as regular local students. Those who apply for graduate schools at TKU shall follow TKU regulations.
International students who have been expelled from any other university or college in Taiwan are not eligible to apply for TKU admission.

International students who are approved for an internship after graduation in Taiwan by designated authorities may afterwards extend their international student status for no more than one year after graduation.

During the course of study in Taiwan, international students, who are approved for initial household registration, resident registration, naturalization or restoration of their R.O.C. nationality, will lose their international student status and shall withdraw from school.

International students who withdraw from university/college after admission due to behavior issues, poor academic performance or a conviction under the Criminal Code may not thereafter apply again for admission under this regulation.

International students who are not withdrawn from schools in the preceding paragraphs can apply for transferring to TKU.

4. The enrollment quota for international students indicated in this article means the amount of degree seeking international students. An enrollment quota for international student is the additional 10% of local student enrollment and the total enrollment quota shall be submitted to MOE for approval in each academic year.
5. Departments/graduate institutes which accept international students shall stipulate their specific application rules and submit the rules to the school authorities.
The Office of Academic Affairs is responsible for the preliminary review of the application materials and shall forward them to the corresponding departments/graduate institutes for assessment. The list of qualified applicants who are accepted will be sent back to the Admission Committee Office of Academic Affairs to finalize and announce the admission results and mail admission notices to the accepted applicants individually.
6. Application for admission shall contain the following documents and be submitted to the Office of Academic Affairs during the application period. Applicants who are qualified for admission will receive the admission certificate after review and examination by the Department and school.
 - (a) The completed application form with recent passport-size bust photos attached.

 - (d) For doctoral program applicant, a copy of master's thesis or works in related fields, plus other application materials specifically required by the concerned graduate institute.
 - (e) Verification of nationality, verification of degree, and other supporting documents.The "international educational institution" stated in subparagraph (b) includes Taiwan's overseas educational institutions. The diploma issued by a school other than Taiwan's overseas educational institutions and the equivalent qualifications will be reviewed in accordance with MOE's regulations concerning international diplomas.
In the event there is any doubt regarding the documentation of any international documents as being unauthenticated by one of Taiwan's overseas representative offices in Subparagraph 2 & 3 of Paragraph 1 during the evaluation process of applications from international students, schools may require that these international documents be authenticated by one of Taiwan overseas representative offices; schools may apply to a Taiwan overseas representative office for evaluation assistance regarding documents to be authenticated by one of Taiwan overseas representative offices.
If the verification of nationality and the diploma submitted are found to be false, the admission will be cancelled or the student status will be deprived. If the applicant is found to be unqualified before the examination is held, the candidacy will be cancelled; if found upon registration, the

admission will be revoked; if found after admission, the student status will be deprived without tuition refund.

7. International students who have already completed undergraduate programs in Taiwan and seek admission to Master programs or higher academic levels shall submit the diploma and official transcripts issued by the university or college from which they graduate and are not subject to the restrictions stated in paragraph (b) in Point 6.
International students with a diploma and transcript issued by a school located in Taiwan for foreign residents or by a bilingual division (program) affiliated with a senior high school in Taiwan are eligible for application for admission specified in Point 6 and are not subject to the restrictions stated in Point 3 and paragraph (b) in Point 6 .

10. Accepted international students must not apply for enrollment in classes offered for on-the-job training, such as continuing undergraduate program, in-service Master program, and other programs only available for nighttime and holidays. However, those who have alien resident certificates or permanent resident certificates, and those who enroll in the international programs approved by MOE shall be excluded from this restriction.
11. Accepted international students may enroll if they arrive before one-third of the first semester. They shall enroll for the second semester if they arrive after one-third of the first semester has passed.
12. In the event of setting up programs for international students under agreements with foreign schools or other special needs, TKU shall follow the regulations regarding the Student Admission Quotas and Resources and report to MOE for approval.
13. TKU may sign agreements with foreign schools to recruit foreign exchange students without interfering with regular instruction and may also accept non-degree seeking international students in accordance with criteria of international student admission.
Non-degree students are not regarded as having official student status. The length of study is one year, and can be extend one more year by the school's approval. Non-degree students who are admitted as degree students through school examination will receive the credits acquired during their previous study attendance and examination by his/her own Department
14. All international students shall apply to TKU's Office of Academic Affairs for admission and observe all the regulations promulgated by both our country and TKU upon being accepted. International students shall pay for their schooling fees in accordance with the schooling fee standards except when an agreement is otherwise specified.
